Objective

Motivated and detail-oriented Software Developer skilled in MERN stack and Java, with strong problem-solving skills in Data Structures and Algorithms. Passionate about building efficient, scalable applications and constantly learning new technologies.

Education

IMS Engineering College, Ghaziabad, Uttar Pradesh   *2022 – 2026*
B.Tech – Information Technology
CGPA: 8.22

Children Public Sr Sec School, Fatehpur
Class 12th (2021–22): 72.83%
Class 10th (2019–20): 83.33%

Technical Skills and Interests

- **Core Competencies:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Responsive Web Design, REST API Development, Debugging
- **Languages:** Java, JavaScript (ES6+), TypeScript, HTML, CSS
- **Web Development:** React.js, React-Redux, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose
- **Tools:** Git, GitHub, VS Code, Chrome DevTools
- **Expertise:** MERN Stack Development

Projects

MegaBlog – Full-Stack Blogging Platform — React, Appwrite, Tailwind CSS
- Blogging app with authentication, database, and storage using Appwrite
- Used Redux Toolkit, React Router DOM, React Hook Form for state, routing, and forms
- **GitHub:** Repository Link

Myntra Functional Clone — HTML, CSS, JavaScript
- Built a functional Myntra clone with dynamic product listing and cart features
- Used localStorage for persistent cart state and implemented a responsive UI
- **GitHub:** Repository Link

Weather App — HTML, CSS, JavaScript
- Responsive weather application using OpenWeatherMap REST API for real-time weather data
- **GitHub:** Repository Link

Certificates

- Java Programming Excellence — Scaler Academy
- Web Development Using React.js — CETPA
- Responsive Web Design — FreeCodeCamp
- React — HackerRank

Achievements

- Solved 400+ problems on **LeetCode**
- 6 Problem Solving and 5 Java on **HackerRank**
- Completed a 1-month virtual internship at CodSoft working on Java-based projects (ATM Interface, Quiz App, Course Registration System)
